Marty,

As you requested, I've attached a Word version of Enclosure B.

[attachment "Enclosure B to Rippy Inc. 104e.docx" deleted by Stephen Berninger/R9/USEPA/US]

We don't seem to have any response per se from Rippy regarding the properties at 12471 or 12519 E. Washington Blvd. As I mentioned to you a few days ago, EPA sent a 104e request to Carol Castillo, Controller of Fred R. Rippy, Inc., regarding 12519 E. Washington on June 27, 2002. Although we have no response to that request, we do have numerous documents relating to the properties, which I have attached to this email.

Let me know if I can be of further assistance.

Subject: RE: Rippy 104e request - Omega Chemical Superfund Site

Dear Stephen:

A couple of followup questions:

Is it possible to get a Word version of Enclosure B of your September 16, 2010 letter to Rippy? I'd like

to cut and paste the questions in front of our responses.

Also, have you been able to track down any previous responses which you received from Rippy?

Thank you very much.

That's correct about the response due date, although we would greatly appreciate an earlier response if possible. Thanks.

Thank you, Steve. In the meantime, I am confirming that no response is due from Rippy to the EPA's September 16, 2010 letter until at least October 29.

Thank you also for your contact information. Mine is below.

Marty,

As we discussed, I'll let you know what documents we have here at Region 9, regarding the 12471 and 12519 E. Washington Blvd. properties.
